

APPLICATION INFORMATION

An individual may request, in writing, issuance of a WebDrafter.com Staff Login account. Approval or decline for such requests is at the sole discretion of WebDrafter.com. WebDrafter.com Staff Login access eligibility is based, in part, on meeting the following criteria:

- A. WebDrafter.com Employees.
- B. WC Owners within the WebDrafter.com organization.
- C. Hired Website sales subcontractors working directly for WebDrafter.com.
- D. Hired Website sales subcontractors working for WC Owners within the WebDrafter.com organization.

WC Owners within the WebDrafter.com organization must request a WebDrafter.com Login account by submitting the request in writing (email is acceptable).

Independent Market America Distributors and/or WC Owners within the WebDrafter.com organization, who have WC Owners within their own business must have the actual WC Owner submit their own written request (email is acceptable) for an account.

WC Owners who have hired subcontractors to sell Websites and consult on their behalf must make a written request (email is acceptable) to WebDrafter.com for an account to be set up for the subcontractor.

Subcontractors who sell Websites for WC Owners are not permitted to make their own Login account requests. The cognizant WC Owner for whom the subcontractor does work must submit the written request (email is acceptable) on the subcontractor's behalf.

Written requests for a WebDrafter.com Login account must contain the following information:

- Full Name
- Email Address
- Phone Number
- Desired Username (minimum of 6 characters)
- Whether the account is for YOURSELF as a WC Owner, or a subcontractor that you have hired
- Your WC Name (The sitename that you named it when you set it up, not a domain name that you paid to register)
- Distributor ID Number (If a WC Owner)

or

Copy of Subcontractor Agreement (If account is for your hired subcontractor)

All requests for a Login account will be screened, and requestors will be interviewed prior to granting account access.

You can expedite and simplify the application process by submitting the account application form online.
